Expressway Handling... here to make logistics **simple!**

Expressway Handling are a privately owned business based on the boundaries of Heathrow Airport. We pride ourselves on our service which we achieve by a combination of ever developing I.T. systems and friendly customer service.

We realise that in the Logistics industry time is extremely valuable to our customers so we look to offer a “One Stop Shop” approach saving not only time but also money. Whether this is through our versatile fleet of vehicles covering the entire UK, or through our own Civil Aviation Authority approved warehouse facility with full onsite air cargo screening..... we can help.

If you would like to talk to us to see where Expressway Handling can benefit your business, please contact us to discuss the wide range of services we offer.

UK Road Haulage > Cargo Reception & Handling > Air Cargo Screening

Regional Sameday Returns & National Overnight Services

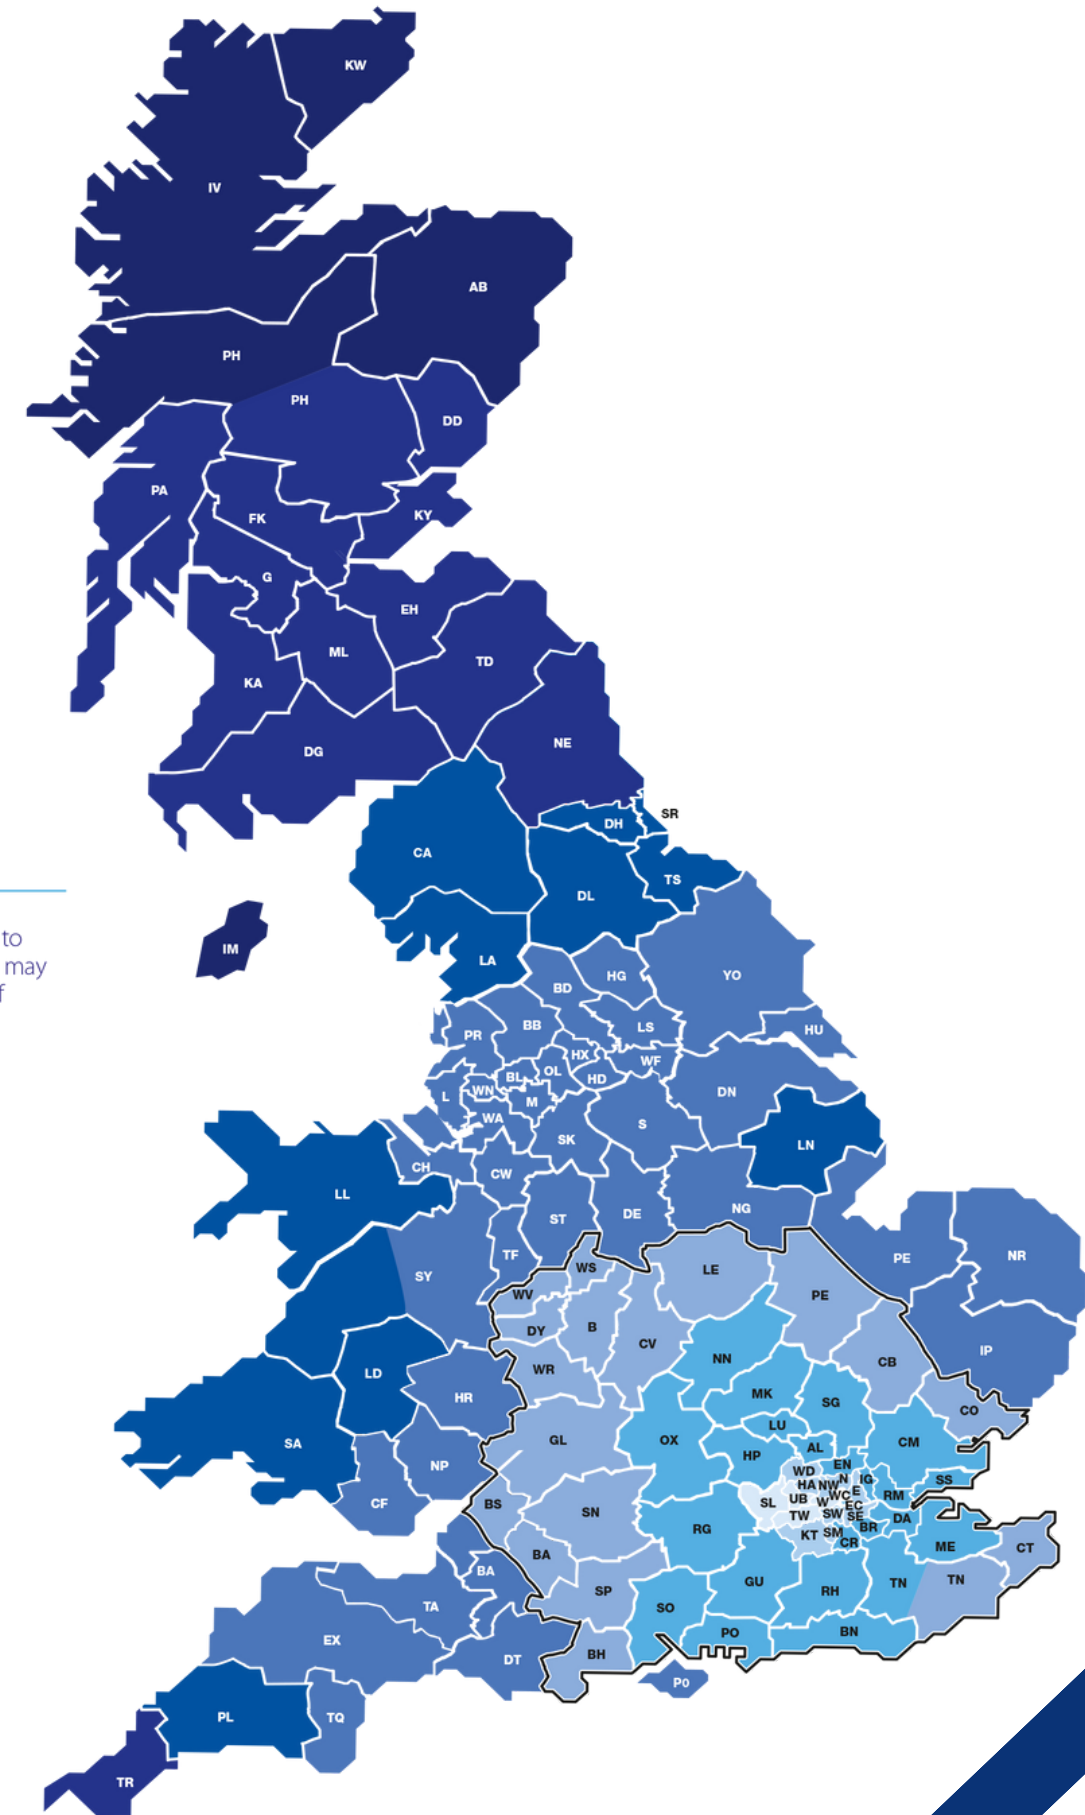

Expressway Handling offer regional sameday returns and further afield overnight collections using our consolidated daily tariff services.

This gives the customer a reliable service whilst keeping the costs to a minimum.

With zones 1 to 4 back with us that afternoon/early evening, customers can look to have their cargo delivered into the airline overnight following collection.

Transit Times

These are indicative transit times only from point of collection back to Expressway Handling. These times may increase or decrease dependant of volumes and/or bad weather.

- ZONE 1** Same Day
- ZONE 2** Same Day
- ZONE 3** Same Day
- ZONE 4** Same Day
- ZONE 5** Next Day
- ZONE 6** Up to 2 Days
- ZONE 7** Up to 3 Days
- ZONE 8** Up to 4 Days

Dedicated UK Road Haulage services at your fingertips

Expressway Handling have been providing UK road haulage solutions since 2010 and have developed a real understanding of how to totally fulfil customer's needs.

Whether your cargo is time sensitive, full load or requiring special attention due to the commodity, we are able offer dedicated door to door services across our entire fleet.

Our versatile fleet of vehicles range from small vans through to Rollerbed Q7 trailers with many of these fitted with tail lifts, air ride systems and ADR ready.

Setting the standards in Cargo Reception & Handling

From our facility just minutes away from Heathrow Airport, we offer a full range of cargo reception and handling services, from a single package through to full air charters. As well as handling our customer's collection and delivery requirements we are happy to receive or distribute your goods with any third party haulier of your choice. You can also nominate our facility as your own distribution centre whilst working from your own offices elsewhere in the UK.

As a Civil Aviation Authority (CAA) listed agent we are able to collect goods on your behalf or accept goods into our facility as SPX cargo. We are also able to build air cargo units and handle temperature controlled air cargo units.

Our heavy weight loading equipment allows us to handle some of the weird and wonderful items the logistics industry may put in front of us. This can be from plant and machinery through to some of the most high end cars on the planet.

UK Road Haulage > Cargo Reception & Handling > Air Cargo Screening

Introducing our CAA Approved Cargo Screening Facility

Expressway Handling offer full in-house air cargo screening services, meaning we can offer a “One Stop Shop” option from point of collection within the UK, on site screening and onward airline delivery saving you both time and money.

We have invested in the very latest screening equipment and now operate the largest 180cm x 180cm throughput X-Ray machine on the market in the UK today. In addition we also operate our own Explosive Trace Detection (ETD) machine allowing us to handle those outsized and dense items, and the more unusual items such as cars.

This equipment is complimented with ongoing development into our fully automated Warehouse Management System (WMS). This WMS provides our customers with real time and accurate information which can be specifically tailored to meet your needs.

FREDD's Free Running Explosive Detection Dogs

Our Air Cargo Screening Facility has been expanded with the introduction of in-house Free Running Explosive Detection Dogs (FREDD's).

As well as bringing a smile to our faces each day these guys can deal with cargo that in the past has proved extremely difficult (if not impossible) to screen with conventional methods such as X-Ray and ETD.

All of these services are complimented with ongoing development into our fully automated Warehouse Management System (WMS).

This WMS provides our customers with real time and accurate information which can be specifically tailored to meet your needs.

Overnight Consolidated Airline Deliveries

Although airline delivery of cargo is the final step in the export process, it is also one of the most important in meeting shippers and customers' expectations.

Expressway Handling are extremely proud of our airline delivery service and ensure we provide sufficient staff and vehicles to meet ever fluctuating demand.

Using our own drivers and vehicles to carry out airline deliveries gives customers confidence that their goods will be delivered as agreed. When using our consolidated overnight airline delivery service customers can use our fixed rate tariff with no hidden extras as we do not charge waiting time.

Teamwork divides the task and multiplies the success

Although Expressway Handling continue to invest in our IT ensuring our transport and warehouse systems are full integrated, it would all be in vain if the departments were not working to the same goal.

With Aaron our Warehouse Manager on the left, and Marcin our Transport Manager on the right, having collaborated in the industry for over 10 years, customers can be confident their shipments will be handled with the same care and attention throughout the entire process.

The company's Managing Director Danny Bryant established Expressway Handling back in 2010, and has over 30 years experience in the freight forwarding industry.

He shares the following mantra with his team and customers...

“keep it simple - keep it moving”

UK Road Haulage > Cargo Reception & Handling > Air Cargo Screening

What do people say about us? Some customer comments.

As office-based forwarders, we rely on Expressway Handling for most of our trucking and warehousing activities at Heathrow. Danny has built the operations from the ground up with focus on simplifying every process for clients. And it works. We particularly appreciate their swift efficiency and proactive approach to addressing any issues that may arise. Expressway won't let you down.

Fatai - Owner
GLASGOW

We are a Gatwick based forwarder working with Expressway for some time now and it is like having our own dedicated facility at Heathrow! They provide a fantastic service at very reasonable rates. Both the transport and warehouse staff are very professional with extremely high service levels at all times!

Paul - General Manager
GATWICK

The team at Expressway Handling go above & beyond where possible to assist me in every aspect for Export shipments. Along with an impeccable customer service, really down to earth & very fair / understanding and being based 200 miles away from Heathrow this is crucial. Would not use any other haulier within the Heathrow area to handle any of my shipments but Expressway!

Kyle - Account Manager
